WELCOME TO GATE!

Discover how our European partnership is transforming the GreenComp framework into practical learning resources for adult educators. The GATE project officially started in September 2025 and brings together six organisations from France, Belgium, Germany and Portugal. During the first months of the project, the GATE partnership has successfully laid the foundations for three years of collaboration dedicated to making GreenComp more accessible and practical for adult educators across Europe. This first newsletter looks back at our first project milestones, introduces the project's vision and highlights how GreenComp is already inspiring European policies and educational practice.

GATE AT A GLANCE

Programme

Erasmus+ Cooperation Partnership

Duration

2025 - 2028

Coordinator

INSUP Formation

Partnership

Université Bordeaux Montaigne
Le Forem
FormaForm
BUPNET GmbH Bildung und Projekt Netzwerk
Amar Terra Verde Lda

Target group

Adult educators and training organisations

OUR MISSION

To transform the European GreenComp framework into practical, engaging and accessible learning experiences that empower educators and learners to contribute to a more sustainable future.

WHAT IS GREENCOMP?

GreenComp is the European Sustainability Competence Framework developed by the European Commission in 2022. It provides a common reference framework describing the **knowledge**, **skills** and **attitudes** citizens need to contribute to a sustainable society. Rather than focusing exclusively on environmental issues, GreenComp promotes systems thinking, critical reflection, future-oriented thinking and responsible action.

The framework is organised around 4 competence areas:

**Embodying
sustainability
values**

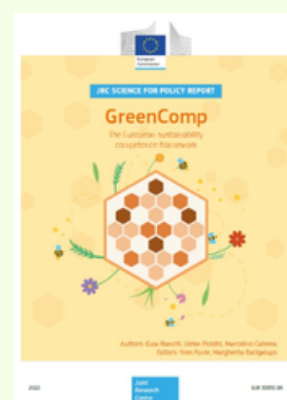

**Embracing
complexity in
sustainability**

**Envisioning
sustainable
futures**

**Acting
for
sustainability**

[GreenComp The European sustainability competence framework](#)

and 12 interconnected competences that support lifelong learning and active citizenship.

The GATE project aims to make these competences easier to understand through simplified explanations, visual resources and innovative educational tools designed specifically for adult education.

PROJECT NEWS

1 KICK-OFF MEETING

Bordeaux, France
29-30 October 2025

Hosted by INSUP Bordeaux, GATE kick-off launched this 3 year partnership. Project objectives, results and milestones were reviewed, and all partners shared a common commitment to raising awareness of GreenComp to ensure it is better integrated into the practices of adult education trainers.

2 Second Transnational Meeting

Göttingen, Germany
10-11 February 2026

BUPNET hosted the 2nd transnational meeting focused on the educational development of the project. Partners reviewed the progress of the work and began brainstorming on the storylines for the serious games, with creativity and imagination at the forefront!

BEHIND THE SCENES

Project meetings are only the visible part of the collaboration.

Between international meetings, partners have continued working through regular online meetings and bilateral exchanges to ensure steady progress.

Current activities include:

- simplifying the GreenComp framework
- creating educational storylines
- designing the 12 serious games
- developing digital learning resources

This continuous collaboration ensures that every project output benefits from the expertise and experience of all partner organisations.

EUROPEAN INSPIRATION

In March 2026, the Gate partners were pleased to discover the first **Strategy on Intergenerational Fairness** adopted by the European Commission to develop the reflex of long-term thinking in EU policymaking, while giving greater weight to the views and concerns of young people.

Strategy On Intergenerational Fairness

«The Strategy on Intergenerational Fairness paves the way for stronger solidarity between generations, today and in the future»
said Roxana Mînzatu, Executive Vice-President for Social Rights and Skills

Intergenerational fairness must be mainstreamed in policy design, implementation, evaluation and spending with regard to:

Competitiveness
without resource
depletion

Investing in people
and promoting a strong
European social model

Protecting our Planet
for those yet to come

Delivering impact through
global and local level

in Factsheet - Strategy On Intergenerational Fairness

This EU Strategy is linked directly to our GATE project and the GreenComp competence: Supporting Fairness that promotes Intergenerational responsibility, equity and justice for current and future generations.

GreenComp Spotlight

Focusing on one of the 12 competences of the GreenComp:

SUPPORTING FAIRNESS

To support equity and justice for current and future generations and learn from previous generations for sustainability.

Supporting Fairness reminds us that sustainability is not just about protecting natural resources but also about creating inclusive societies where decisions benefit everyone. This competence lies at the heart of many current European initiatives.

GATE PARTNERSHIP

Meet the Coordinator

INSUP Formation (France)

INSUP coordinates the GATE project and brings extensive experience in adult education, vocational training and European cooperation, especially projects linked to transversal competences.

Within GATE, INSUP leads the overall management of the project, ensuring effective collaboration among partners and the successful delivery of all planned results.

LOOKING AHEAD

The coming months promise exciting developments.

GATE will continue working on:

- the simplified version of the GreenComp framework
- the first serious games
- teaser videos
- the online learning platform
- the digital resource library

These results will gradually become available through the project website.

Follow our journey!
